HUB 360

Accessibility Statement

Effective date: October 30, 2026

SAMPLE DOCUMENT - placeholder text for the HUB 360 prototype. It is not legal advice and has not been reviewed by counsel.

HUB 360 is committed to making the platform usable by everyone, including people who use assistive technologies.

1. Our standard

We aim to meet the Web Content Accessibility Guidelines (WCAG) 2.1 at level AA across the Service.

2. What we do

- Every screen supports keyboard navigation with visible focus indicators.
- Form fields have labels, required fields are announced to screen readers, and error messages are linked to the fields they describe.
- Colors come from a shared design system with light and dark themes, checked for text contrast.

3. Known limitations

Some screens of the Service are still in development and may not yet meet every guideline. We review new screens before release.

4. Feedback

If you have trouble using any part of the Service, contact legal@hub360.example and we will help and work to fix the issue.
